

UK Subsidy Control Statement

The cost of this event or training course is offered to you as financial assistance under the UK Government Subsidy Control Regime as outlined in the draft Subsidy Control Bill (Subsidy Control Bill - Parliamentary Bills - UK Parliament). This outlines that companies, that are not ailing or insolvent without a credible restructuring plan, can receive small amounts of subsidy without the need for either a full evaluation of the subsidy or registration of the subsidy. This minimal financial assistance is up to 315,000€ over a three-year period including De Minimis aid received under the European Commission's De Minimis regulations (1407/2013). *

Please accept below if you declare to the best of your knowledge that your business has not received more than 315,000€ of financial assistance over the past three-years
